

**THROUGH THE VEILS
A JOURNEY INTO THE
MULTIDIMENSIONAL
WORLDS of
SACRED ENGLAND
&
the crop circles**

**July 25 – August 2, 2009
WITH
PATRICIA CORI**

Another once in a lifetime opportunity manifests this summer in the magical lands of Avalon, as we pursue our dreams: to know the unknown, to explore ourselves, our world and yet hidden worlds beyond. To know and make ours the magic of the past, to open and pass through the portals of our multidimensional experience as souls on this great journey of immortal “I am” awareness.

This highly popular program offers Patricia’s powerful two-day intensive: DNA ACTIVATION–LEVEL ONE.

July 24: Arrive Glastonbury

Arrive in Glastonbury on your own (we will provide train information from London) so that you are prepared to begin the two-day workshop, required if you have not attended level one previously with Patricia. To keep costs down and to offer you the maximum freedom in planning your trip to sacred Avalon, accommodations in Glastonbury (an assortment of bed and breakfast options) must be arranged on your own. Move quickly! This is a very busy period in this part of the world and with the Glastonbury Symposium and Goddess Conferences rooms go fast. Check info on booking your accommodations below.

July 25-26: DNA Activation

The weekend is dedicated to the intensive Level One DNA activation workshop, opening you to receive more

light in the body electric! Delve into the process of activating the DNA and pineal gland through the deeply moving process of soul fragment retrieval and preparation for the activation of the third strand of DNA: an intensive experience of self-exploration. The workshop is taught in picturesque Glastonbury, which you will love! If you have already participated in a Level One workshop elsewhere, you can use this time to participate in the Glastonbury Symposium, THE crop circle event of the year!

July 27 – Crop Circles - Stonehenge

Having taken part in the powerful workshop, where Patricia & High Council conduct the activation of the third strand of DNA— creating triangulation within the molecular framework of our beings, we head out to Avebury where we will dive into our crop circle hunt by first stopping at the famed Silent Circle, where all croppies congregate to get the latest news of what is happening in the fields!

Lunch, very loosely structured, can be taken at a pub or snack area along our way.

Guided by Patricia, we enter these vortex centers of interdimensional contact, exploring what is there for us to retrieve, hearing and seeing with our extrasensory antennae.

At the completion of our day's explorations, we proceed to **Stonehenge**, where we have the rare opportunity to enter inside the stone circles, as a private

group. The DNA activation will lead us to opening the inter-dimensional Halls of Records of Stonehenge and serve us in our quest to retrieve the ascension codes that are embedded here

Evening back to Glastonbury – free evening.

July 28 - Crop Circles - Avebury

Morning we are off again, returning to the hub of crop circle activity! We meditate at the huge Avebury Circle and visit The Sanctuary, famed Silbury Hill, and the West Kennet Long Barrow/ Our hunt for new formations continues!

Again, we stop for lunch along the way where you can purchase a sandwich, have a brew or whatever suits you to energize you for the crop circle treks!

After a full day at the crops, we return again to Glastonbury with a free evening to enjoy the mysticism of ancient Avalon.

July 29 - Glastonbury (D)

Morning we climb the Glastonbury Tor, home of the King of the Fairies, with its three-dimensional labyrinth dedicated to the Great Goddess. Centuries of legends and folklore have centered around the Tor, the heart of Glastonbury.

There we will enjoy a meditation for peace in the world, empowered by the awesome energies that run through the Tor and calling in the Great Magus, Merlin.

After the Tor, we visit the quintessential site of Druid worship, the ancient trees, Gog and Magog.

Lunch is free and you have the afternoon to explore the magical village of Glastonbury and to prepare for a very special event in the evening at The Chalice Wells, the magical garden and healing fountains.

Our special private ceremony at the Wells will be followed by a surprise Arthurian Fest, complete with dinner and wine!

July 30 (D) Cornwall - Tintagel

Morning we depart for the breathtaking landscapes of Cornwall, steeped in Celtic Lore and the haunting castle of Tintagel, believed to be the birthplace of King Arthur.

We stop for a bite to eat on the way.

Our hotel in Cornwall, the Camelot Castle, is perched right above the cliffs where the ruins of the famous Tintagel Castle (believed to be where Arthur was born) are found.

Afternoon is free to explore the charming village of Tintagel and to relax, enjoy and tune into the vibrations of this powerful location.

Dinner, included, we share together at the hotel.

July 31 (B&D – Cornwall)

Breakfast in the hotel.

We then proceed to the stunning Merlin's cave, transporting us back to a time when the baby Arthur was nurtured by the great magus, Merlin. Patricia will guide us in a toning ceremony inside the mystical cave.

Weather permitting, you will be free to enjoy the beach and perhaps a swim! The day is very relaxed – you may want to grab a sandwich and just sit on the beach, connecting with the forces of life and beauty. Those who want to explore the ruins of Tintagel can enjoy the breathtaking panorama from the cliffs.

Dinner, together, will be enjoyed in the hotel.

August 1 (B, L &D) Cornwall

Breakfast in the hotel

Morning we depart for the enchanted fairy glen of St Nectan, with its astounding waterfall and hermitage with healing sanctuary. Here the Druids say, is where the Devic forces are most active in the entire country! Afterwards we visit the impressive Rocky Valley, with its labyrinth rock carving, dating to the Bronze Age.

We will enjoy a picnic lunch there, in the magical forest.

Unencumbered with no tight schedule or 'program', we will return when the group is ready and enjoy a farewell dinner together in preparation for our departure the next day.

August 2 (B)

Morning we have breakfast and then check-out to prepare for our departure.

The bus will stop at Exeter station for those people who are training back to London to make their international flights. All other participants are free to return to Glastonbury where the tour ends.

Included in Package:

- Meals indicated in the program.
- Three nights accommodations in Cornwall, based on double occupancy (single supplements will be applied to people intending to have a private room)
- Private entry at Stonehenge
- Private entry at the Chalice Wells.
- Any required costs from farmers of fields where we will enter crop circles, determined as we go!
- All ground transportation during tour
- Two-day Workshop Level One with Patricia Cori registration fee
